| <p>Umut Yasat's name is linked to his main project, an ongoing work-in-progress known as Der Stapel, which he started in 2014. A development of ideas concerning time and progress, mortality and banality. Formally, Der Stapel is configured by the agglomeration of materials that somehow become part of the artist's life: trivia and meaningful things are compressed until they reach the artist's body height, configuring a way to visualize time - Yasat's and our own, given the presence of everyday objects that populate our world.</p> | | | | |
